SUMMARY

Computer Science & AI student and CTO across two AI startups who works best embedded with the customer: scoping real-world problems with the people who have them, shipping working AI systems fast, and owning them through deployment.

EXPERIENCE

IEU Labs x Sybol, Software Engineer & Team Lead | AI Compliance Engine

Mar 2026 – Aug 2026

- Technical lead for client Sybol, leading a **7-person team** and translating requirements from Sybol's CTO into architecture, milestones, and deliverables.
- Architected an agentic RAG pipeline over **EU AI Act, GDPR, and Digital Product Passport** regulation returning compliance rules per asset.
- Designed a media authenticity scoring engine (**0-1 scale**) issuing signed **W3C Verifiable Credentials**.

Pharmable, Co-founder & CTO | AI Compliance Platform for Biotech

2026 – Present

- Building an AI compliance platform for Series A–C biotechs preparing **FDA/EMA** filings, targeting **\$50K–\$100K/year** contracts.
- Architected the MVP: validation engine for **21 CFR Part 11/211/820** and **ICH Q10/E3**, SHA-256 hash-chained audit trail, and AI-assisted Clinical Study Report drafting.

Hospitia, CTO | AI Hotel Inspection Platform (stealth)

Sep 2026 – Present

- Own the technical side of a **four-stage** AI vision pipeline automating hotel brand-compliance inspections and PIP reports.
- Leading migration to **AWS** (Bedrock, S3) and benchmarking open-weight vision models (Gemma, Qwen).
- Auditing the codebase for outsource vs. in-house decisions and building the team scaling plan.

amo (Bump), Content Specialist, Bump Mexico

Sep 2026 – Present

- Run creative strategy and a UGC creator network for Mexico; content reached **5M+ organic views** on Instagram Reels and **20M+ distributed views** on TikTok.

Extern x Outamation, AI Document Intelligence Extern

Dec 2025 – Feb 2026

- Selected for the IE x Extern program (**12% acceptance**); built OCR + LLM + RAG pipelines turning complex multipage PDFs into structured JSON for real automation use cases.

IEU Labs x Frutas Prohibidas, Software Engineer & Team Lead

Feb 2025 – Jun 2025

- Led a **3-person team** shipping a production MVP for a restaurant client (React, Node.js, Supabase) calculating **CO₂, water, and land impact** per transaction.
- Owned client communication end to end, from requirements and demos through deployment.

PROJECTS & COMPETITIONS

HackSpain 2026 x HappyRobot, Agentic Drone System for Wildfire Management

1st Place, Track | Sep 2026

- Won the HappyRobot track, shipping a working agentic drone system on HappyRobot's platform in **48 hours** with a **4-person team**.
- Scoped the problem with **active firefighters**, turning real dispatch workflows into product requirements and agent logic.
- Built the operator UI/UX to monitor and direct the drone agents, keeping human responders in the loop.
- Demo: hackspain.g-villar.tech

StreamScope, Real-Time Twitch Chat Intelligence Platform

2nd / 25 teams | IE Tech Venture Bootcamp

- Placed **2nd of 25 teams**, mostly Master's students; led a **4-person team** and architected the system (Flask REST APIs, NLP classification pipeline, React dashboard).

IATA x Infosys Sustainability Datathon

Top 5 / 38 teams | Oct – Dec 2025

- Modeled EU27 SAF adoption on IATA/EUROCONTROL/Eurostat data; proposed a levy cutting cost per ton from **\$633 to \$29 (95%)**.

LEADERSHIP & ACTIVITIES

- **IE Technology & Innovation Club**, Partnerships Officer: helped organize **TechIE Day**, leading the **Cursor hackathon**; lining up **HappyRobot** as partner for the next edition.
- **Innovis VC**, Startup Sourcing & Deal Flow | **AI Lab Ambassador**, IE University (selected for performance)
