

Javier Cruz Villarreal

Madrid, Spain | +34 673 256 252 | contact@javicruz.dev | linkedin.com/in/javiercruzv | github.com/javocruz

Eligible to sign internship agreement via IE University

SUMMARY

Computer Science & AI student who builds and leads AI products from idea to demo. CTO across two AI startups, hackathon winner, and most comfortable close to the customer, bridging engineering, product, and business.

EXPERIENCE

IEU Labs × Sybol, Software Engineer & Team Lead | AI Compliance Engine Mar 2026 – Aug 2026

- Led a **7-person team** across technical, research, and QA workstreams in direct coordination with Sybol's CTO.
- Architected an agentic RAG pipeline ingesting **EU AI Act, GDPR, and Digital Product Passport** regulation to return structured compliance rules per media asset.
- Designed a media authenticity scoring engine (**0–1 scale**, deepfake to authentic) with outputs encoded as signed **W3C Verifiable Credentials**.

Pharmable, Co-founder & CTO | AI Compliance Platform for Biotech 2026 – Present

- Building an AI compliance platform for Series A–C biotechs preparing **FDA/EMA** filings, targeting **\$50K–\$100K/year** contracts.
- Architected the MVP: validation engine for **21 CFR Part 11/211/820** and **ICH Q10/E3**, SHA-256 hash-chained audit trail, and AI-assisted Clinical Study Report drafting.

Hospitia, CTO | AI Hotel Inspection Platform (stealth) Sep 2026 – Present

- Own tech strategy for a **four-stage** AI vision pipeline automating hotel brand-compliance inspections and PIP reports.
- Leading migration to **AWS** (Bedrock, S3) and benchmarking open-weight vision models (Gemma, Qwen).
- Auditing the codebase to decide what to outsource vs. keep in-house, and building the team scaling plan tied to client growth.

amo (Bump), Content Specialist, Bump Mexico Sep 2026 – Present

- Own creative strategy for Mexico, managing UGC creators and local TikTok/IG accounts toward **~10% weekly growth**.
- Produced short-form content reaching **5M+ organic views** on Instagram Reels and **20M+ distributed views** on TikTok.

Extern × Outamation, AI Document Intelligence Extern Dec 2025 – Feb 2026

- Selected for the IE × Extern program (**12% acceptance**); built OCR + LLM pipelines extracting structured JSON from complex multipage PDFs.

IEU Labs × Frutas Prohibidas, Software Engineer & Team Lead Feb 2025 – Jun 2025

- Led a **3-person team** shipping a production MVP for a restaurant client (React, Node.js, Supabase) calculating **CO₂, water, and land impact** per transaction.

PROJECTS & COMPETITIONS

HackSpain 2026 × HappyRobot, Agentic Drone System for Wildfire Management 1st Place, Track | Sep 2026

- Won the HappyRobot track at HackSpain 2026, one of Spain's largest hackathons, going from idea to a working, demoable prototype in **48 hours** with a **4-person team**.
- Co-designed the architecture of an agentic system on HappyRobot's platform coordinating drones for wildfire detection and response.
- Scoped the problem with **active firefighters**, translating how real emergencies are dispatched and managed into product requirements and agent workflows.
- Designed and built the operator-facing UI/UX used to monitor and interact with the drone agents, keeping human responders in the loop during the live demo.
- Demo: hackspain.g-villar.tech

StreamScope, Real-Time Twitch Chat Intelligence Platform 2nd / 25 teams | IE Tech Venture Bootcamp

- Placed **2nd of 25 teams**, mostly Master's students. Led product vision for a platform that turns live Twitch chat into real-time insights for streamers, continuing development toward commercial launch.
- Architected the full-stack system: designed the frontend (analytics dashboard, overlay editor, analytics UI) and contributed to backend services (**Flask REST APIs**, **NLP classification pipeline**, data flow design).
- Directed a **4-person cross-functional team** (developers + business lead), defining features, roadmap, and overall system architecture.
- Links: ie.edu/school-science-technology/student-projects/streamscoop | github.com/javocruz/Stream-Scope

IATA × Infosys Sustainability Datathon Top 5 / 38 teams | Oct – Dec 2025

- Modeled SAF adoption across EU27 aviation using IATA, EUROCONTROL, and Eurostat data; proposed a levy mechanism cutting cost per ton from **\$633 to \$29 (95%)**.

LEADERSHIP & ACTIVITIES

IE Technology & Innovation Club, Partnerships Officer Jan 2026 – Present

- Helped organize **TechIE Day**, leading the **Cursor hackathon**, from sponsor coordination to participant experience on the day.
- Driving outreach to tech companies and startups for partnerships, sponsorships, and speakers; lining up **HappyRobot** as partner for the next TechIE Day.

AI Lab Ambassador, IE University

Jan 2026 – Present

- Selected for performance to support AI Lab operations, mentor incoming students, and grow IE's AI community through lab sessions and knowledge-sharing.

Innovis VC, Startup Sourcing & Deal Flow

Student-led venture fund

- Source and evaluate early-stage startups, producing structured deal flow assessments on market, product, and team.

EDUCATION

IE School of Sciences and Technology, B.S. Computer Science & Artificial Intelligence (3rd year)

Madrid | Expected Jun 2028

Tecnológico de Monterrey, B.S. Computer Science and Technology

Monterrey | Sep 2022 – Jan 2024

SKILLS

AI & ML: LLMs, RAG, Agentic Systems, Prompt Engineering, OCR, Vector Search, NLP

Engineering: Python, SQL, TypeScript, React, Node.js/Express, Flask, Supabase/PostgreSQL, C/C++

Data & Cloud: BigQuery, Looker, EDA, Google Cloud Platform, Docker, CI/CD, Git

Languages: Spanish (Native), English (C1)
